

Grade 7 Student Learning Plan

Student Name: _____

Date: _____

Parent Name: _____

Academic Advisor: _____

Humanities		Teacher: Raven Sundahl
Language Arts		Link to BC Curricular Learning Standards
Big Ideas: <ul style="list-style-type: none">Language and text can be a source of creativity and joy.Exploring stories and other texts helps us understand ourselves and make connections to others and to the world.Exploring and sharing multiple perspectives extends our thinking.Developing our understanding of how language works allows us to use it purposefully.Questioning what we hear, read & view contributes to our ability to be educated and engaged citizens.		
Social Studies – The Ancient World to the 7th Century		Link to BC Curricular Learning Standards
Big Ideas: <ul style="list-style-type: none">Geographic conditions shaped the emergence of civilizations.Religious and cultural practices that emerged during this period have endured and continue to influence people.Increasingly complex societies required new systems of laws and government.Economic specialization and trade networks can lead to conflict and cooperation between societies.		
Applied Design, Skills, and Technologies		Link to BC Curricular Learning Standards
Big Ideas: <ul style="list-style-type: none">Design can be responsive to identified needs.Complex tasks require the acquisition of additional skills.Complex tasks may require multiple tools and technologies.		
Arts Education		Link to BC Curricular Learning Standards
Big Ideas: <ul style="list-style-type: none">Through art making, one's sense of identity and community continually evolves.Experiencing art challenges our point of view and expands our understanding of others.Dance, drama, music, and visual arts are each unique languages for creating and communicating.Engaging in the arts develops people's ability to understand and express complex ideas.		
Interests/Strengths/Difficulties/Planned activities in consultation with advisor:		Resources:
Mathematics		Teacher: Brian Nemethy
		Link to BC Curricular Learning Standards
Big Ideas: <ul style="list-style-type: none">Decimals, fractions, and percents are used to represent and describe parts and wholes of numbers.Computational fluency & flexibility with numbers extend to operations with integers and decimals.Linear relations can be represented in many ways to identify regularities and make generalizations.The constant ratio between the circumference and diameter of circles can be used to describe, measure, and compare spatial relationships.Data from circle graphs can be used to illustrate proportion and to compare and interpret.
